EAT AT JOE'S LTD. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE SIX MONTHS ENDED JUNE 30, 2009 AND 2008

NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

This summary of accounting policies for Eat At Joe's, Ltd. and subsidiaries is presented to assist in understanding the Company's financial statements. The accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the financial statements.

Organization

Eat At Joe's Ltd. (Company) was incorporated on January 6, 1988, under the laws of the State of Delaware, as a wholly-owned subsidiary of Debbie Reynolds Hotel and Casino, Inc. (DRHC) (formerly Halter Venture Corporation or Halter Racing Stables, Inc.) a publicly-owned corporation. DRHC caused the Company to register 1,777,000 shares of its initial 12,450,000 issued and outstanding shares of common stock with the Securities and Exchange Commission on Form S-18. DRHC then distributed the registered shares to DRHC stockholders.

During the period September 30, 1988 to December 31, 1992, the Company remained in the development stage while attempting to enter the mining industry. The Company acquired certain unpatented mining claims and related equipment necessary to mine, extract, process and otherwise explore for kaolin clay, silica, feldspar, precious metals, antimony and other commercial minerals from its majority stockholder and other unrelated third-parties. The Company was unsuccessful in these start-up efforts and all activity was ceased during 1992 as a result of foreclosure on various loans in default and/or the abandonment of all assets. From 1992 until 1996 the Company had no operations, assets or liabilities.

On July 29, 2003, the Board of Directors resolved to change the authorized capital stock from 50,000,000 common shares to 250,000,000 common shares. There was no change to the par value.

Basis of Presentation

The Company's consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. The consolidated financial statements do not include any adjustment relating to recoverability and classification of recorded amounts of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

(Continued)

Basis of Presentation (continued)

The Company has incurred a net income (loss) for the six months ended June 30, 2009 and 2008 of \$ (33,858) and \$ (745,900), respectively, and the Company had a working capital deficit of \$3,486,097. These conditions raise substantial doubt as to the Company's ability to continue as a going concern.

The Company's continued existence is dependent upon its ability to execute its operating plan and to obtain additional debt or equity financing. There can be no assurance the necessary debt or equity financing will be available, or will be available on terms acceptable to the Company.

Management plans include opening one new restaurant during the next twelve months and obtaining additional financing to fund payment of obligations and to provide working capital for operations and to finance future growth. The Company is actively pursuing alternative financing and has had discussions with various third parties, although no firm commitments have been obtained. In the interim, shareholders of the Company have committed to meeting its operating expenses. Management believes these efforts will generate sufficient cash flows from future operations to pay the Company's obligations and realize other assets. There is no assurance any of these transactions will occur.

Nature of Business

The Company is developing, owns and operates theme restaurants styled in an "American Diner" atmosphere.

Principles of Consolidation

The consolidated financial statements include the accounts of Eat At Joe's, LTD. and its wholly-owned subsidiaries, E.A.J. Hold, Inc., a Nevada corporation ("Hold"), E.A.J. PHL Airport, Inc., a Pennsylvania corporation, E.A.J. Shoppes, Inc., a Nevada corporation, E.A.J. Cherry Hill, Inc., a Nevada corporation, E.A.J. Neshaminy, Inc., a Nevada corporation, E.A.J. Inventories

Inventories consist of food, paper items and related materials and are stated at the lower of cost (first-in, first-out method) or market.

Revenue Recognition

The Company generates revenue from the sale of food and beverage through its restaurants. Revenue is recognized upon receipt of payment.

Income Taxes

The Company accounts for income taxes under the provisions of SFAS No. 109, "Accounting for Income Taxes." SFAS No.109 requires recognition of deferred income tax assets and liabilities for the expected future income tax consequences, based on enacted tax laws, of temporary differences between the financial reporting and tax bases of assets and liabilities.

Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes.

Depreciation

Office furniture, equipment and leasehold improvements, are stated at cost. Depreciation and amortization are computed using the straight-line method over the estimated economic useful lives of the related assets as follows:

Furniture & fixtures	5-10 years
Equipment	5- 7 years
Leasehold improvements	8-15 years

Maintenance and repairs are charged to operations; betterments are capitalized. The cost of property sold or otherwise disposed of and the accumulated depreciation thereon are eliminated from the property and related accumulated depreciation accounts, and any resulting gain or loss is credited or charged to income.

Amortization

Intangible assets consist of a trademark registered with the United States of America Patent and Trademark Office with a registration No. 1575696. Intangible assets are amortized over their estimated useful life of 10 years.

The Company has adopted the Financial Accounting Standards Board SFAS No., 142, "Goodwill and Other Intangible Assets." SFAS 142 requires, among other things, that companies no longer amortize goodwill, but instead test goodwill for impairment at least annually. In addition, SFAS 142 requires that the Company identify reporting units for the purposes of assessing potential future impairments of goodwill, reassess the useful lives of other existing recognized intangible assets, and cease amortization of intangible assets with an indefinite useful life. An intangible asset with an indefinite useful life should be tested for impairment in accordance with the guidance in SFAS 142.

The Company has adopted Financial Accounting Standards Board Statement No. 144. SFAS 144 requires that long-lived assets, such as property, plant, and equipment, and purchased intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by comparison of the carrying amount of an asset to estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount by which the carrying amount of the asset exceeds the fair value of the asset.

Assets to be disposed of would be separately presented in the balance sheet and reported at the lower of the carrying amount or fair value less costs to sell, and are no longer depreciated. The assets and liabilities of a disposed group classified as held for sale would be presented separately in the appropriate asset and liability sections of the balance sheet.

Recent Accounting Standards

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. Generally accepted accounting principles have required different measurement attributes for different assets and liabilities that can create artificial volatility in earnings. The FASB has indicated it believes that SFAS 159 helps to mitigate this type of accounting-induced volatility by enabling companies to report related assets and liabilities at fair value, which would likely reduce the need for companies to comply with detailed rules for hedge accounting. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in SFAS 157 and SFAS No. 107, "Disclosures about Fair Value of Financial Instruments." SFAS 159 is effective for the Company as of the beginning of fiscal year 2008. The adoption of this pronouncement did not have an impact on the Company's financial position, results of operations or cash flows.

In December 2007, the FASB issued No. 160, "Noncontrolling Interests in Financial Statements, an amendment of ARB No. 51" ("SFAS 160"). SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years beginning on or after December 15, 2008. Early adoption is not permitted. Management is currently evaluating the effects of this statement, but it is not expected to have any impact on the Company's financial statements.

Recent Accounting Standards

In December 2007, the FASB issued No. 141(R), "Business Combinations" ("SFAS 141(R)"). SFAS 141(R) provides companies with principles and requirements on how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, liabilities assumed, and any noncontrolling interest in the acquiree as well as the recognition and measurement of goodwill acquired in a business combination. SFAS 141(R) also requires certain disclosures to enable users of the financial statements to evaluate the nature and financial effects of the business combination. Acquisition costs associated with the business combination will generally be expensed as incurred. SFAS 141(R) is effective for business combinations occurring in fiscal years beginning after December 15, 2008, which will require the Company to adopt these provisions for business combinations occurring in fiscal 2009 and thereafter. Early adoption of SFAS 141(R) is not permitted. Management is currently evaluating the effects of this statement, but it is not expected to have any impact on the Company's financial statements.

In March 2008, the FASB issued No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. ("SFAS 161"). SFAS 161 requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. This Statement encourages, but does not require, comparative disclosures for earlier periods at initial adoption. Management is currently evaluating the effects of this statement, but it is not expected to have any impact on the Company's financial statements.

Earnings (Loss) Per Share

Basic loss per share has been computed by dividing the loss for the year applicable to the common stockholders by the weighted average number of common shares outstanding during the years.

Diluted net income per common share was calculated based on an increased number of shares that would be outstanding assuming that the preferred shares were converted to 16,501,650 and 10,000,000 common shares as of June 30, 2009 and 2008, respectively. The effect of outstanding common stock equivalents are anti-dilutive for 2009 and 2008 and are thus not considered.

Pervasiveness of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles required management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

The Company has no significant off-balance-sheet concentrations of credit risk such as foreign exchange contracts, options contracts or other foreign hedging arrangements. The Company maintains the majority of its cash balances with one financial institution, in the form of demand deposits.

Reclassifications

Certain reclassifications have been made in the 2008 financial statements to conform with the 2009 presentation.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments, including receivables and accounts payable and accrued liabilities at June 30, 2009 and December 31, 2008 approximates their fair values due to the short-term nature of these financial instruments. The carrying values of marketable securities available-for-sale are based on quoted market prices.

Investment in Marketable Securities

The Company's securities investments that are bought and held for an indefinite period of time are classified as available-for-sale securities. Available-for-sale securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income.

The Company's securities investments that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period included in earnings.

Investments in securities are summarized as follows:

	December 31, 2008		
	Gross Unrealized Gain	Gross Unrealized Loss	Fair Value
Trading securities	\$ -	\$ 10,908	\$ 179,049
Available-for-sale securities	\$ 2,300	\$ -	\$ 174,800
	June 30, 2009		
	Gross Unrealized Gain	Gross Unrealized Loss	Fair Value
Trading securities	\$ 38,405	\$ -	\$ 148,092
Available-for-sale securities	\$ -	\$ (53,090)	\$ 130,410

Results of operations for the years ended June 30, 2009 and December 31, 2008 include a gain of \$38,405 and a charge of \$10,908 for unrealized holding losses on trading securities. For the six months ended June 30, 2009 and December 31, 2008, other comprehensive income includes an unrealized holding gain (loss) on available-for-sale securities of \$(53,090) and \$2,300.

Available-for-sale securities:		
Sale Proceeds	\$ -	\$ -
Gross Realized Losses	\$ -	\$ -
Gross Realized Gains	\$ -	\$ -

The following table discloses the assets measured at fair value on a recurring basis and the methods used to determine fair value:

	Fair Value at June 30, 2009	Fair Value Measurements at Reporting Date Using		
		Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 3 - INCOME TAXES

As of December 31, 2008, the Company had a net operating loss carryforward for income tax reporting purposes of approximately \$6,100,000 that may be offset against future taxable income through 2028. Current tax laws limit the amount of loss available to be offset against future taxable income when a substantial change in ownership occurs. Therefore, the amount available to offset future taxable income may be limited. No tax benefit has been reported in the financial statements, because the Company believes there is a 50% or greater chance the carryforwards will expire unused. Accordingly, the potential tax benefits of the loss carryforwards are offset by a valuation allowance of the same amount.

The Company has the following tax assets:

	December 31, 2008	December 31, 2007
Net Operating Losses	\$ 2,074,000	\$ 2,108,000
Depreciation and Other	108,800	114,000
Valuation Allowance	<u>(2,182,800)</u>	<u>(2,222,000)</u>
	<u>\$ -</u>	<u>\$ -</u>

The provision for income taxes differs from the amount computed using the federal US statutory income tax rate as follows:

	December 31, 2008	December 31, 2007
Provision (Benefit) at US Statutory Rate	\$ (350,200)	\$ (191,974)
Net Operating Losses	34,000	136,000
Depreciation and Other	355,400	185,803
Increase (Decrease) in Valuation Allowance	<u>(39,200)</u>	<u>(129,829)</u>
	<u>\$ -</u>	<u>\$ -</u>

The Company evaluates its valuation allowance requirements based on projected future operations. When circumstances change and causes a change in management's judgement about the recoverability of deferred tax assets, the impact of the change on the valuation is reflected in current income.

NOTE 4 - UNCERTAIN TAX POSITIONS

Effective January 1, 2007, the company adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. The adoption of the provisions of FIN 48 did not have a material impact on the company's condensed consolidated financial position and results of operations. At December 31, 2008, the company had no liability for unrecognized tax benefits and no accrual for the payment of related interest and penalties. The Company did not record a cumulative effect adjustment relating to the adoption of FIN 48.

NOTE 4 - UNCERTAIN TAX POSITIONS (continued)

Interest costs related to unrecognized tax benefits are classified as "Interest expense, net" in the accompanying condensed consolidated statements of operations. Penalties, if any, would be recognized as a component of "Selling, general and administrative expenses". The Company recognized \$0 of interest and penalties expense related to unrecognized tax benefits during 2007. In many cases the company's uncertain tax positions are related to tax years that remain subject to examination by relevant tax authorities. With few exceptions, the company is generally no longer subject to U.S. federal, state, local or non-U.S. income tax examinations by tax authorities for years before 2004. The following describes the open tax years, by major tax jurisdiction, as of December 31, 2008:

United States (a) 2005 - Present

(a) Includes federal as well as state or similar local jurisdictions, as applicable.

NOTE 5 - RELATED PARTY TRANSACTIONS

During 2008 and 2007, Joseph Fiore, C.E.O. of the Company, and Berkshire Capital, which is controlled by Mr. Fiore, paid expenses and made advances to the Company. NOTE 6 - RENT AND LEASE EXPENSE

The Company's wholly-owned subsidiary E.A.J. PHL Airport, Inc. leases approximately 845 square feet in the Philadelphia Airport, Philadelphia, Pennsylvania pursuant to a lease dated April 30, 1997. E.A.J. PHL Airport pays \$7,083 per month basic rent plus 15% -18% of gross revenues above \$850,000 under the lease which expires April 2010.

The minimum future lease payments under these leases for the next five years are:

Year Ended December 31,	<u>Real Property</u>
2009	\$ 84,996
2010	28,332
2011	-
2012	-
2013	-
Total five year minimum lease payments	\$ 113,328

The lease generally provides that insurance, maintenance and tax expenses are obligations of the Company. It is expected that in the normal course of business, leases that expire will be renewed or replaced by leases on other properties.

NOTE 7 - CONVERTIBLE DEBENTURES

On July 31, and September 2, 1998, the Company sold its 8% convertible debenture in the aggregate principal amount of \$1,500,000 to an accredited investor pursuant to an exemption from registration under Section 4(2) and/or Regulation D.

The material terms of the Company' convertible debentures provide for the payment of interest at 8% per annum payable quarterly, mandatory redemption after 3 years from the date of issuance at 130% of the principal amount. Subject to adjustment, the debentures are convertible into Common Stock at the lower of a fixed conversion price (\$1.82 per share for \$900,000 principal amount of debentures; \$1.61 per share for \$600,000 principal amount of debentures) or 75% of the average closing bid price for the Company's Common Stock for the 5 trading days preceding the date of the conversion notice. Repayment of the indebtedness is secured by a general lien on the assets of the Company and guarantee by 5 of the Company's subsidiaries.

Total issue costs were \$156,551 which were amortized over the initial terms of the debt with a maturity date of July 31 and September 2, 2001.

Item 2. Management's Discussion and Analysis or Plan of Operation.

General - This discussion should be read in conjunction with Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's annual report on Form 10-K for the year ended December 31, 2008.

Plan of Operations - Eat at Joe's Ltd. Intends to open and operate theme restaurants styled in an "American Diner" atmosphere where families can eat wholesome, home cooked food in a safe friendly atmosphere. Eat at Joe's, the classic American grill, is a restaurant concept that takes you back to eating in the era when favorite old rockers were playing on chrome-spangled jukeboxes and neon signs reflected on shiny tabletops of the 1950's. Eat at Joe's fulfills the diner dream with homey ambiance that's affordable while providing food whose quality and variety is such you can eat there over and over, meal after meal. To build on the diner experience, a retail section in each Eat at Joe's would allow customers to take the good feelings home with them, in the form of 50's memorabilia.

The Company's expansion strategy is to open restaurants either through Joint Venture agreements or Company owned units. Units may consist of a combination of full service restaurants or food court locations. Restaurant construction will take from 90-150 days to complete on a leased site.

In considering site locations, the Company concentrates on trade demographics, such as traffic volume, accessibility and visibility. High Visibility Malls and Strip Malls in densely populated suburbs are the preferred locations. The Company also scrutinizes the potential competition and the profitability of national restaurant chains in the target market area. As part of the expansion program, the Company will inspect and approve each site before approval of any joint venture or partnership.

A typical food court unit is approximately 500 square feet, whereas for a full service operation it is approximately 3,500 square feet. Food court operation consists of a limited menu. A full service restaurant consists of 30-35 tables seating about 140-150 people. The bar area will hold 6-8 tables and seats 30-35 people.

The restaurant industry is an intensely competitive one, where price, service, location, and food quality are critical factors. The Company has many established competitors, ranging from similar casual-style chains to local single unit operations. Some of these competitors have substantially greater financial resources and may be established or indeed become established in areas where the Eat at Joe's Company operates. The restaurant industry may be affected by changes in customer tastes, economic, demographic trends, and traffic patterns. Factors such as inflation, increased supplies costs and the availability of suitable employees may adversely affect the restaurant industry in general and the Eat at Joe's Company Restaurant in particular. Significant numbers of the Eat at Joe's personnel are paid at rates related to the federal minimum wage and accordingly, any changes in this would affect the Company's labor costs.

Over the next twelve months, the company will maintain operations as they currently exist. We do not anticipate the hiring of new full-time employees or the need for additional funds to satisfy cash requirements. Expansion within the current location is not viable, however management may seek to make acquisitions of established businesses, or, if a desirable location becomes available, we may elect to expand the concept. Locations would be sought in heavily trafficked areas, such as within an airport, train station, etc. We have not found any such location as of the date of this filing and no agreements are in place.

Results of Operations - For the six months ended June 30, 2009, the Company had a net loss of \$33,858, composed of a loss from operations of \$9,170 and net other expense of \$24,688. For the six months ended June 30, 2008, the Company had a net loss of \$745,900 composed of a loss from operations of \$234,193 and net other expense of \$511,707. Net other income/loss is primarily due to gains and losses from the sale of marketable securities.

Total Revenues - For the six months ended June 30, 2009 and 2008, the Company had total sales of approximately \$660,000 and \$780,000 respectively, for a decrease of approximately \$120,000. The overall economic condition of the country has caused airport traffic to decline. Consumers are spending and traveling less and airlines are eliminating or combining flights. There is a direct correlation between airport traffic and the Company's sales, thus the decrease in revenues in 2009 compared to 2008. As the economy stabilizes and moves toward a recovery, airport traffic is expected to increase and will be reflected in increased sales for the Company.

Costs and Expenses - Costs of revenues, which include the costs of food, beverage, and kitchen supplies remained the same as a percentage of sales from 2008 to 2009. The cost of labor, rent and other general and administrative costs, decreased by 29% as a percentage of sales for the six months ended June 30, 2009 compared to the six months ended June 30, 2008. The decrease in these expenses from 2008 to 2009 is primarily due to the recognition of \$208,000 of general and administrative expenses related to the issuance of stock in February 2008. Depreciation and amortization expense decreased by approximately \$650 from 2008 to 2009, respectively, due to certain fixed assets reaching the end of their estimated depreciable lives. Management expects depreciation and amortization to decline until the Company can carry out its expansion plans. Depreciation expense will increase as these plans are completed and as new assets are acquired.

LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2009, the Company has a working capital deficit of approximately \$3,486,097. The Company's continued existence is dependent upon its ability to execute its operating plan and to obtain additional debt or equity financing. There can be no assurance the necessary debt or equity financing will be available, or will be available on terms acceptable to the Company.

Management plans include searching for and opening new restaurants in the future and obtaining additional financing to fund payment of obligations and to provide working capital for operations and to finance future growth. The Company is actively pursuing alternative financing and has had discussions with various third parties, although no firm commitments have been obtained. In the interim, shareholders of the Company have committed to meeting its operating expenses. Management believes these efforts will generate sufficient cash flows from future operations to pay the Company's obligations and realize other assets. There is no assurance any of these transactions will occur.

The Company has met its capital requirements through the sale of its Common Stock, Convertible Preferred Stock, Convertible Debentures and Notes Payable.

Since the Company's re-activation in January, 1997, the Company's principal capital requirements have been the funding of (i) the development of the Company and its 1950's diner style concept, (ii) the construction of its existing units and the acquisition of the furniture, fixtures and equipment therein and (iii) towards the development of additional units.

During the six months ended June 30, 2009 and 2008, the Company generated approximately \$60,000 and \$354,000 respectfully, in cash from investing activities from the purchase and sale of marketable equity securities. As of June 30, 2009, the company owns marketable securities valued at \$278,502 with corresponding liabilities of 1,248,179 in the form of related party payables of \$8,784 and related party notes payable of \$1,239,395 (including interest accruing at 6%).

During the six months ended June 30, 2009 and 2008, the Company raised approximately \$0 and \$42,000 through short-term notes payable and advances from Majority stockholders. The net proceeds to the Company were used for working capital. During 2008, the Company repaid \$550,000 in shareholder advances from past years. As of June 30, 2009, approximately \$1,041,117 (including interest accruing at 6%) in advances was due to Joseph Fiore, C.E.O. of the Company.

On May 16, 2007, 45,529,411 restricted shares of Eat at Joe's, LTD were issued by the Board of Directors to Berkshire Capital Management Co, Inc at \$0.015 per share in satisfaction of \$682,941.00 in related party accounts payable due to Berkshire Capital Management. The shares were valued using the fair market value of the stock on the date of issuance. The fair market value of the stock was determined by the quoted market price of the stock on the date of issuance.

On February 28, 2008, 16,000,000 shares at \$.013 of common stock were issued to the company's current officers, directors and support staff. The shares were valued using the fair market value of the stock on the date of issuance. The fair market value of the stock was determined by the quoted market price of the stock on the date of issuance. Compensation expense of \$208,000 resulting from this issuance has been recorded in the accompanying financial statements.

For the six months ended June 30, 2009 and 2008, operating activities used approximately \$19,600 and \$38,000 in cash .

After the completion of its expansion plans, the Company expects future development and expansion will be financed through cash flow from operations and other forms of financing such as the sale of additional equity and debt securities, capital leases and other credit facilities. There are no assurances that such financing will be available on terms acceptable or favorable to the Company.

Government Regulations - The Company is subject to all pertinent Federal, State, and Local laws governing its business. Each Eat at Joe's is subject to licensing and regulation by a number of authorities in its State or municipality. These may include health, safety, and fire regulations. The Company's operations are also subject to Federal and State minimum wage laws governing such matters as working conditions, overtime and tip credits.

Critical Accounting Policies -The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Note 1 to the Consolidated Financial Statements describes the significant accounting policies and methods used in the preparation of the Consolidated Financial Statements. Estimates are used for, but not limited to, contingencies and taxes. Actual results could differ materially from those estimates. The following critical accounting policies are impacted significantly by judgments, assumptions, and estimates used in the preparation of the Consolidated Financial Statements.

We are subject to various loss contingencies arising in the ordinary course of business. We consider the likelihood of loss or impairment of an asset or the incurrence of a liability, as well as our ability to reasonably estimate the amount of loss in determining loss contingencies. An estimated loss contingency is accrued when management concludes that it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. We regularly evaluate current information available to us to determine whether such accruals should be adjusted.

We recognize deferred tax assets (future tax benefits) and liabilities for the expected future tax consequences of temporary differences between the book carrying amounts and the tax basis of assets and liabilities. The deferred tax assets and liabilities represent the expected future tax return consequences of those differences, which are expected to be either deductible or taxable when the assets and liabilities are recovered or settled. Future tax benefits have been fully offset by a 100% valuation allowance as management is unable to determine that it is more likely than not that this deferred tax asset will be realized.

Investment in Marketable Securities

The Company's securities investments that are bought and held for an indefinite period of time are classified as available-for-sale securities. Available-for-sale securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period excluded from earnings and recorded net of tax as a component of other comprehensive income.

The Company's securities investments that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Trading securities are recorded at fair value on the balance sheet in current assets, with the change in fair value during the period included in earnings.

Recently Enacted and Proposed Regulatory Changes - Recently enacted and proposed changes in the laws and regulations affecting public companies, including the provisions of the Sarbanes-Oxley Act of 2002 and rules proposed by the SEC and NASDAQ could cause us to incur increased costs as we evaluate the implications of new rules and respond to new requirements. The new rules could make it more difficult for us to obtain certain types of insurance, including directors and officers liability insurance, and we may be forced to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. The impact of these events could also make it more difficult for us to attract and retain qualified persons to serve on the Company's board of directors, or as executive officers. We are presently evaluating and monitoring developments with respect to these new and proposed rules, and we cannot predict or estimate the amount of the additional costs we may incur or the timing of such costs.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). SFAS 159 provides companies with an option to report selected financial assets and liabilities at fair value. The objective of SFAS 159 is to reduce both complexity in accounting for financial instruments and the volatility in earnings caused by measuring related assets and liabilities differently. Generally accepted accounting principles have required different measurement attributes for different assets and liabilities that can create artificial volatility in earnings. The FASB has indicated it believes that SFAS 159 helps to mitigate this type of accounting-induced volatility by enabling companies to report related assets and liabilities at fair value, which would likely reduce the need for companies to comply with detailed rules for hedge accounting. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 does not eliminate disclosure requirements included in other accounting standards, including requirements for disclosures about fair value measurements included in SFAS 157 and SFAS No. 107, "Disclosures about Fair Value of Financial Instruments." SFAS 159 is effective for the Company as of the beginning of fiscal year 2008. The adoption of this pronouncement did not have an impact on the Company's financial position, results of operations or cash flows.

In December 2007, the FASB issued No. 160, "Noncontrolling Interests in Financial Statements, an amendment of ARB No. 51" ("SFAS 160"). SFAS 160 amends ARB 51 to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. It clarifies that a noncontrolling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as equity in the consolidated financial statements. This Statement is effective for fiscal years beginning on or after December 15, 2008. Early adoption is not permitted. Management is currently evaluating the effects of this statement, but it is not expected to have any impact on the Company's financial statements.

In December 2007, the FASB issued No. 141(R), "Business Combinations" ("SFAS 141(R)"). SFAS 141(R) provides companies with principles and requirements on how an acquirer recognizes and measures in its financial statements the identifiable assets acquired, liabilities assumed, and any noncontrolling interest in the acquiree as well as the recognition and measurement of goodwill acquired in a business combination. SFAS 141(R) also requires certain disclosures to enable users of the financial statements to evaluate the nature and financial effects of the business combination. Acquisition costs associated with the business combination will generally be expensed as incurred. SFAS 141(R) is effective for business combinations occurring in fiscal years beginning after December 15, 2008, which will require the Company to adopt these provisions for business combinations occurring in fiscal 2009 and thereafter. Early adoption of SFAS 141(R) is not permitted. Management is currently evaluating the effects of this statement, but it is not expected to have any impact on the Company's financial statements.

In March 2008, the FASB issued No. 161, "Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133. ("SFAS 161"). SFAS 161 requires enhanced disclosures about an entity's derivative and hedging activities and thereby improves the transparency of financial reporting. This Statement is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. This Statement encourages, but does not require, comparative disclosures for earlier periods at initial adoption. Management is currently evaluating the effects of this statement, but it is not expected to have any impact on the Company's financial statements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer are responsible for establishing and maintaining disclosure controls and procedures for the Company.

(a) Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon the evaluation, the Company's President concluded that, as of the end of the period, the Company's disclosure controls and procedures were effective in timely alerting him to material information relating to the Company required to be included in the reports that the Company files and submits pursuant to the Exchange Act.

(b) Changes in Internal Controls

Based on this evaluation as of June 30, 2009, there were no changes in the Company's internal controls over financial reporting or in any other areas that could significantly affect the Company's internal controls subsequent to the date of his most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
