**NOTE 1 - ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Interim Financial Statements**

The accompanying condensed consolidated financial statements are unaudited. These unaudited interim condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and applicable rules and regulations of the Securities and Exchange Commission (“SEC”) regarding interim financial reporting. Certain information and note disclosures normally included in the financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these interim condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in the Company’s Annual Report on Form 10-K/A for the fiscal year ended December 31, 2017 filed with the SEC. The condensed consolidated balance sheet as of December 31, 2017 included herein was derived from the audited consolidated financial statements as of that date, but does not include all disclosures, including notes, required by GAAP.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all adjustments necessary to fairly present the Company’s financial position and results of operations for the interim periods reflected. Except as noted, all adjustments contained herein are of a normal recurring nature. Results of operations for the fiscal periods presented herein are not necessarily indicative of fiscal year-end results.

**Organization**

The Company was incorporated as Conceptualistics, Inc. on January 6, 1988 in Delaware. Subsequent to its incorporation, the Company changed its name to Eat at Joe’s, Ltd. In February 2015, the Company changed its name to SPYR, Inc. and adopted a new ticker symbol “SPYR” effective March 12, 2015.

**Nature of Business**

The primary focus of SPYR, Inc. (the “Company”) is to act as a holding company and develop a portfolio of profitable subsidiaries, not limited by any particular industry or business.

Through our wholly owned subsidiary, SPYR APPS, LLC we operate our mobile games and applications business. The focus of the SPYR APPS subsidiary is the development and publication of our own mobile games as well as the publication of games developed by third-party developers.

Through our other wholly owned subsidiary, E.A.J.: PHL Airport, Inc., we owned and operated the restaurant “Eat at Joe’s®,” which was located in the Philadelphia International Airport since 1997. Our lease in the Philadelphia Airport expired in April 2017. Concurrent with expiration of the lease the restaurant closed. Pursuant to current accounting guidelines, the assets and liabilities of EAJ as well as the results of its operations were presented in these financial statements as discontinued operations.

**Principles of Consolidation**

The consolidated financial statements include the accounts of SPYR, Inc. and its wholly-owned subsidiaries, SPYR APPS, LLC, a Nevada Limited Liability Company, E.A.J.: PHL, Airport Inc., a Pennsylvania corporation (discontinued operations, see Note 7), and Branded Foods Concepts, Inc., a Nevada corporation. Intercompany accounts and transactions have been eliminated.

**Going Concern**

The accompanying financial statements have been prepared under the assumption that the Company will continue as a going concern. Such assumption contemplates the realization of assets and satisfaction of liabilities in the normal course of business, however, the issues described below raise substantial doubt about the Company’s ability to do so.

As shown in the accompanying financial statements, for the six months ended June 30, 2018, the Company recorded a net loss from continuing operations of \$5,013,000 and utilized cash in continuing operations of \$1,476,000. As of June 30, 2018, our cash balance was \$168,000 and we had trading securities of \$19,000. These issues raise substantial doubt about the Company’s ability to continue as a going concern.

SPYR, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
Six Months Ended June 30, 2018 and 2017  
(Unaudited)

The Company plans to expand its mobile games and application development and publishing activities, such as Pocket Starships and Steven Universe: Tap Together, through acquisition and/or development of its own intellectual property and publishing agreements with developers.

Historically, we have financed our operations primarily through private sales of our trading securities, through sales of our common stock, and through related party loans. If our sales goals for our products do not materialize as planned, we believe that the Company can reduce its operating and product development costs that would allow us to maintain sufficient cash levels to continue operations. However, if we are not able to achieve profitable operations at some point in the future, we may have insufficient working capital to maintain our operations as we presently intend to conduct them or to fund our expansion, marketing, and product development plans.

The ability of the Company to continue as a going concern is dependent upon the success of future capital offerings or alternative financing arrangements and expansion of its operations. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. Management is actively pursuing additional sources of financing sufficient to generate enough cash flow to fund its operations through calendar year 2018. However, management cannot make any assurances that such financing will be secured.

**Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions used by management affected impairment analysis for trading securities, fixed assets, intangible assets, capitalized licensing rights, amounts of potential liabilities, and valuation of issuance of equity securities. Actual results could differ from those estimates.

**Earnings (Loss) Per Share**

The Company's computation of earnings (loss) per share (EPS) includes basic and diluted EPS. Basic EPS is calculated by dividing the Company's net income (loss) available to common stockholders by the weighted average number of common shares during the period. Diluted EPS reflects the potential dilution, using the treasury stock method that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the net income (loss) of the Company. In computing diluted EPS, the treasury stock method assumes that outstanding options and warrants are exercised, and the proceeds are used to purchase common stock at the average market price during the period. Shares of restricted stock are included in the basic weighted average number of common shares outstanding from the time they vest.

The basic and fully diluted shares for the six months ended June 30, 2018 are the same because the inclusion of the potential shares (Class A – 26,909,028, Class E – 312,520, Options – 13,740,000, Warrants – 5,300,000) would have had an anti-dilutive effect due to the Company generating a loss for the six months ended June 30, 2018.

The basic and fully diluted shares for the three months ended June 30, 2018 are the same because the inclusion of the potential shares (Class A – 26,909,028, Class E – 312,520, Options – 13,740,000, Warrants – 5,300,000) would have had an anti-dilutive effect due to the Company generating a loss for the three months ended June 30, 2018.

The basic and fully diluted shares for the six months ended June 30, 2017 are the same because the inclusion of the potential shares (Class A – 26,909,028, Class E – 185,874, Options – 6,120,000, Warrants – 1,200,000) would have had an anti-dilutive effect due to the Company generating a loss for the six months ended June 30, 2017.

**Capitalized Gaming Assets and Licensing Rights**

Capitalized gaming assets and licensing rights represent costs to acquire trademarks, copyrights, software, technology, music or other intellectual property or proprietary rights in the development of our products. Depending upon the agreement with the rights holder, we may obtain the right to use the intellectual property in multiple products over a number of years, or alternatively, for a single product.

Significant management judgments and estimates are utilized in assessing the recoverability of capitalized costs. In evaluating the recoverability of capitalized costs, the assessment of expected product performance utilizes forecasted sales amounts and estimates of additional costs to be incurred. If revised forecasted or actual product sales are less than the originally forecasted amounts utilized in the initial recoverability analysis, the net realizable value may be lower than originally estimated in any given quarter, which could result in an impairment charge. Material differences may result in the amount and timing of expenses for any period if management makes different judgments or utilizes different estimates in evaluating these qualitative factors.

On October 23, 2017, the Company completed the acquisition of all assets that refer, relate or pertain to the real—time cross-platform MMO game commonly known and referred to as “Pocket Starships,” including but not limited to all intellectual property, know how, “urls,” websites, game engines, game store accounts, prior versions, company names and trade names, business plans, financial reports, financial data, employee data, customer lists, forecasts, strategies, and all other business information; manufacturing or other technical or scientific know-how, specifications, technical drawings, drawings, artwork, music, diagrams, schematics, technology, processes, and any other trade secrets, discoveries, ideas, concepts, know-how, techniques, materials, formulae, compositions, information, data, results, plans, surveys and/or reports of a technical nature; and software programs (including all forms of code), software documentation, software development kits, game design documents, and formulae related to the current, future and proposed products and services, including any additions, enhancements or modifications to the foregoing or derivatives thereof after the date hereof.

As consideration for the acquisition, the Company issued eight million shares of the Company’s restricted common stock valued at \$3,200,000, options to purchase up to eight million shares of the Company’s restricted common stock valued at \$2,452,000 and assumed liabilities of \$210,000 for a total purchase price of \$5,862,000. The options are fully vested, exercisable at a price per share of \$0.50 and will expire starting August 31, 2020. The acquisition of “Pocket Starships” was reported as part of capitalized gaming assets and licensing rights valued at \$481,000 based upon discounted cash flows. The difference between purchase price and the capitalized value was recorded as loss on write down on assets during 4<sup>th</sup> quarter 2017. The Company amortizes the capitalized cost on a straight-line basis over an estimated life of seven to ten years.

Further, the options previously issued pursuant to a purchase option agreement dated June 25, 2016, which provided for the option to purchase up to three million, seven hundred and fifty thousand shares of Registrant’s common stock, are fully vested and remain in effect in accordance with the terms of the purchase option agreement.

During 2017, the Company capitalized \$175,000 pursuant to a licensing agreement for the non-exclusive, limited right to incorporate certain intellectual property (IP) from various *STAR TREK* television series in to future updates to and expansions of the Pocket Starships game. The Company estimates that the IP will have an estimated life of 1.6 years, which approximates the term of the license. In addition, we also acquired the game titled Battlewack: Idle Lords for \$100,000, pursuant to settlement with the game owner and developer. Battlewack: Idle Lords requires additional development before it can be released.

During the three and six months ended June 30, 2018, the Company recorded amortization expense of \$17,000 and \$34,000, respectively. As of June 30, 2018 and December 31, 2017, the unamortized capitalized gaming assets and licensing rights amounted to \$709,000 and \$743,000 respectively.

**Software Development Costs**

Costs incurred for software development are expensed as incurred. During the six months ended June 30, 2018 and 2017, the Company incurred \$453,000 and \$265,000 in software development costs paid to independent gaming software developers.

During the three months ended June 30, 2018 and 2017, the Company incurred \$154,000 and \$152,000 in software development costs paid to independent gaming software developers.

**Revenue Recognition**

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, *Revenue from Contracts with Customers*. ASU 2014-09 is a comprehensive revenue recognition standard that superseded nearly all existing revenue recognition guidance under prior U.S. GAAP and replace it with a principles-based approach for determining revenue recognition. The core principle of the standard is the recognition of revenue upon the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services.

We adopted this new revenue recognition standard along with its related amendments on January 1, 2018 and have updated our accounting policy for revenue recognition. As expected, at our current level of revenue, the adoption of this new standard did not impact our financial position or results of operations operating cash flows.

We determine revenue recognition by: (1) identifying the contract, or contracts, with our customer; (2) identifying the performance obligations in the contract; (3) determining the transaction price; (4) allocating the transaction price to performance obligations in the contract; and (5) recognizing revenue when, or as, we satisfy performance obligations by transferring the promised goods or services.

Through our wholly owned subsidiary SPYR APPS, LLC, d/b/a SPYR GAMES, we develop, publish and co-publish mobile games, and then generate revenue through those games by way of advertising and in-app purchases. The Company's dedicated mobile gaming applications can be downloaded through the app stores maintained by Apple and Google. The Company's cross platform gaming application, which can be played on personal computers, Facebook and mobile devices, can be downloaded from the internet and Facebook as well as through the app stores maintained by Apple, Google and Amazon.

We operate our games as live services that allow players to play for free. Within these games players can purchase virtual items to enhance their game-playing experience. Our identified performance obligation is to display the virtual items within the game. Payment is required at time of purchase and the purchase price is a fixed amount.

Players can purchase our virtual items through various widely accepted payment methods offered in the games, including Apple iTunes accounts, Google Play accounts, Facebook local currency payments, PayPal and credit cards. Payments from players for virtual items are non-refundable and relate to non-cancellable contracts that specify our obligations.

For revenue earned through app stores, players utilize the app store's local currency-based payments program to purchase virtual items in our games. For all payment transactions on these app store platforms, the app store remits to us 70% of the price we request to be charged to the player for each transaction, which represents the transaction price. We recognize revenue net of the amounts retained by the app stores for platform and payment processing fees.

**Recent Accounting Standards**

In February 2016, the FASB issued Accounting Standards Update (ASU) No. 2016-02, *Leases*. ASU 2016-02 requires a lessee to record a right of use asset and a corresponding lease liability on the balance sheet for all leases with terms longer than 12 months. ASU 2016-02 is effective for all interim and annual reporting periods beginning after December 15, 2018. Early adoption is permitted. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The Company is in the process of evaluating the impact of ASU 2016-02 on the Company's financial statements and disclosures.

In July 2017, the FASB issued Accounting Standards Update (ASU) No. 2017-11, *Earnings Per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): (Part I) Accounting for Certain Financial Instruments with Down Round Features, (Part II) Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception*. (“ASU 2017-11”). ASU 2017-11 allows companies to exclude a down round feature when determining whether a financial instrument is considered indexed to the entity’s own stock. As a result, financial instruments with down round features are no longer classified as liabilities and embedded conversion options with down round features are no longer bifurcated. For equity-classified freestanding financial instruments, such as warrants, an entity will treat the value of the effect of the down round, when triggered, as a dividend and a reduction of income available to common shareholders in computing basic earnings per share. For convertible instruments with embedded conversion options that have down round features, an entity will recognize the intrinsic value of the feature only when the feature becomes beneficial. The guidance in ASU 2017-11 is effective for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. We early adopted ASU 2017-11 effective January 1, 2018 without a material impact on our consolidated financial statements.

Other recent accounting pronouncements issued by the FASB, including its Emerging Issues Task Force, the American Institute of Certified Public Accountants, and the Securities and Exchange Commission did not or are not believed by management to have a material impact on the Company’s present or future consolidated financial statements.

The expected life of the employee option is estimated by considering the contractual term of the option, the vesting period of the option, the employees' expected exercise behavior and the post-vesting employee turnover rate. (2) The expected stock price volatility was based upon the Company's historical stock price over the expected term of the option. (3) The risk-free interest rate is based on published U.S. Treasury Department interest rates for the expected terms of the underlying options. (4) The expected dividend yield was based on the fact that the Company has not paid dividends to common shareholders in the past and does not expect to pay dividends to common shareholders in the future. (5) The expected forfeiture rate is based on historical forfeiture activity and assumptions regarding future forfeitures based on the composition of current grantees.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Condensed Consolidated Financial Statements and supplementary data referred to in this Form 10-Q.

This discussion contains forward-looking statements that involve risks and uncertainties. Such statements, which include statements concerning revenue sources and concentration, selling, general and administrative expenses and capital resources, are subject to risks and uncertainties, including, but not limited to, those discussed elsewhere in this Form 10-Q that could cause actual results to differ materially from those projected. Unless otherwise expressly indicated, the information set forth in this Form 10-Q is as of June 30, 2018, and we undertake no duty to update this information.

**Plan of Operations** – Through our wholly owned subsidiary SPYR APPS, LLC, d/b/a SPYR GAMES we develop, publish and co-publish mobile games, and then generate revenue through those games by way of advertising and in-app purchases. Our primary focus is on the development and expansion of our mobile games and applications. We anticipate we will need to hire additional employees during 2018 to help with the development and marketing of existing and future games and applications.

During the past two years we have invested in the Company's future by working closely with the development team at Spectacle Games to optimize game play and expand the availability of our game Pocket Starships to more users through new and existing game portals, social networking sites and app stores throughout the world. During 2017, we signed an agreement with CBS Consumer Products that will allow the incorporation of intellectual property (IP) from various Star Trek television series into future Pocket Starships updates and expansions. Our Pocket Starships development team is already working on expansions of Pocket Starships to include the *Star Trek* IP, which we expect will be released during the second half of 2018. In Pocket Starships, players can build and pilot several ships and forge alliances on their quest for galactic domination. Players can perform or initiate various activities ranging from fighting pirates to participating in Faction Alerts. With the release of the expansion, those playing Pocket Starships will be able to explore new sectors and engage in exciting battles with the Borg and will be able to staff their ships with their favorite Star Trek characters from the Star Trek TV series franchise – including *Star Trek: The Next Generation*, *Star Trek: Deep Space Nine*, and *Star Trek: Voyager*, through a trading card expansion. In addition, working together with the development team at Reset Studios LLC, we have developed a new tapper game, Steven Universe: Tap Together, featuring characters and storylines from *Steven Universe*, a popular animated television series on Cartoon Network. Steven Universe: Tap Together was launched globally on the Google Play Store on August 2, 2018 and on the IOS App Store on August 9, 2018.

Management's plan for the next 12 months is to build upon this foundation and focus our efforts on marketing and optimizing user acquisition and retention. We will also continue to provide the monthly advances to Spectacle and Reset for further development, enhancement and maintenance of the games as needed to meet the needs of the users and maximize revenue into the future. In addition to our plans for Pocket Starships and Steven Universe: Tap Together, we will continue to seek additional games and apps to publish as we strive to broaden our range of products and increase revenues and operating cash flows. We expect these marketing, development and expansion plans will be financed through existing cash, operating cash flows from game revenues and other forms of financing such as the sale of additional equity and debt securities, capital leases and other credit facilities. The Company may also decide to expand and/or diversify, through acquisition or otherwise, in other related or unrelated business areas if opportunities present themselves.

#### **DISCONTINUED OPERATIONS**

Through our other wholly owned subsidiary, E.A.J.: PHL Airport, Inc., we owned and operated the restaurant "Eat at Joe's®," which was located in the Philadelphia International Airport since 1997. Our lease in the Philadelphia Airport expired in April 2017. Concurrent with expiration of the lease the restaurant closed. Pursuant to current accounting guidelines, the assets and liabilities of EAJ as well as the results of its operations were presented in the accompanying financial statements as discontinued operations.

#### **LIQUIDITY AND CAPITAL RESOURCES**

The accompanying financial statements have been prepared under the assumption that the Company will continue as a going concern. Such assumption contemplates the realization of assets and satisfaction of liabilities in the normal course of business.

The Company has generated a net loss from continuing operations for the six months ended June 30, 2018 of approximately \$5,013,000. As of June 30, 2018, the Company had current assets of \$231,000, which included cash and cash equivalents of \$168,000, accounts receivable of \$18,000 and trading securities of approximately \$19,000.

During the six months ended June 30, 2018, the Company has met its capital requirements through a combination of collection of receivables, the sale of restricted common stock of \$905,000, related party short-term advances of \$55,000, borrowing from a related party line of credit of \$200,000, convertible debt borrowing from third-party lenders of \$400,000, and through the use of existing cash reserves.

On April 20, 2018, the Company signed a convertible promissory note with a third-party lender for up to \$475,000 (net of original issue discount of \$25,000). The note is for 12 months with interest at 8% per annum on the unpaid principal amount. The note holder has the right, at any time on or after 181 calendar days after the date of the note, to convert all or any portion of the outstanding principal and interest into the Company's restricted common stock at \$0.20 per share. On April 26, 2018 the Company borrowed \$150,000 on this note.

On May 22, 2018, the Company signed a convertible promissory note with a third-party lender for up to \$250,000 (net of original issue discount of \$25,000). The note is for 8 months with a one-time interest charge of 8% on the issuance date outstanding balance. The note holder has the right, at any time on or after the issuance date, to convert all or any portion of the outstanding principal and interest into the Company's restricted common stock at \$0.25 per share. On May 22, 2018 the Company borrowed \$250,000 on this note.

As previously described, during the past two years we have invested in the Company's future by working closely with the development team at Spectacle Games to optimize game play and expand the availability of our game Pocket Starships to more users through new and existing game portals, social networking sites and app stores throughout the world. During 2017, we signed an agreement with CBS Consumer Products that will allow the incorporation of intellectual property (IP) from various Star Trek television series into future Pocket Starships updates and expansions. Our Pocket Starships development team is already working on expansions of Pocket Starships to include the *Star Trek* IP, which we expect will be released during the second half of 2018. In Pocket Starships, players can build and pilot several ships and forge alliances on their quest for galactic domination. Players can perform or initiate various activities ranging from fighting pirates to participating in Faction Alerts. With the release of the expansion, those playing Pocket Starships will be able to explore new sectors and engage in exciting battles with the Borg and will be able to staff their ships with their favorite Star Trek characters from the Star Trek TV series franchise – including *Star Trek: The Next Generation*, *Star Trek: Deep Space Nine*, and *Star Trek: Voyager*, through a trading card expansion.

In addition, working together with the development team at Reset Studios LLC, we have developed of a new tapper game, Steven Universe: Tap Together, featuring characters and storylines from *Steven Universe*, a popular animated television series on Cartoon Network. Steven Universe: Tap Together was launched globally on the Google Play Store on August 2, 2018 and on the IOS App Store on August 9, 2018.

The Company will continue to seek additional capital through the sale of its common stock, debt financing and through expansion of its existing and new products. If these goals do not materialize as planned, we believe that the Company can reduce its operating and product development costs and that would allow us to maintain sufficient cash levels to continue operations. However, if we are not able to achieve profitable operations at some point in the future, we may have insufficient working capital to maintain our operations as we presently intend to conduct them or to fund our expansion, marketing, and product development plans. There can be no assurance that we will be able to obtain such financing on acceptable terms, or at all.

**Operating Activities** - For the six months ended June 30, 2018, the Company used cash in operating activities from continuing operations of \$1,476,000. For the six months ended June 30, 2017, the Company used cash in operating activities of \$2,111,000. Operating activities consist of corporate overhead and development of our digital media publishing, advertising and gaming operations. Decreases are due primarily to decreases in cash settled professional fees, game development costs, and other general and administrative expenses partially offset by increased in rent and cash settled labor and related costs. See the above results of operations discussion for more details.

**Investing Activities** – The Company did not have any investing activities during the six months ended June 30, 2018. During the six months ended June 30, 2017, the Company used cash of \$50,000 for the purchase of software licensing rights.

**Financing Activities** - During the six months ended June 30, 2018, the Company sold 6,700,000 shares of restricted common stock to third parties and one related party for \$905,000, borrowed \$55,000 from a related party short-term advance, borrowed \$200,000 from a related party line of credit, and borrowed \$400,000 from convertible debt from third-party lenders. During the six months ended June 30, 2017, the Company sold 750,000 shares of restricted common stock to a former officer/employee for \$300,000.

The Company expects future development and expansion will be financed through cash flows from operations and other forms of financing such as the sale of additional equity and debt securities, capital leases and other credit facilities. There are no assurances that such financing will be available on terms acceptable or favorable to the Company.

**Government Regulations** - The Company is subject to all pertinent Federal, State, and Local laws governing its business. Each subsidiary is subject to licensing and regulation by a number of authorities in its State or municipality. These may include health, safety, and fire regulations. The Company's operations are also subject to Federal and State minimum wage laws governing such matters as working conditions, overtime and tip credits.

**Critical Accounting Policies** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities of the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Note 1 to the Consolidated Financial Statements describes the significant accounting policies and methods used in the preparation of the Consolidated Financial Statements. Estimates are used for, but not limited to, contingencies and taxes. Actual results could differ materially from those estimates. The following critical accounting policies are impacted significantly by judgments, assumptions, and estimates used in the preparation of the Consolidated Financial Statements.

## **Revenue Recognition**

We determine revenue recognition by: (1) identifying the contract, or contracts, with our customer; (2) identifying the performance obligations in the contract; (3) determining the transaction price; (4) allocating the transaction price to performance obligations in the contract; and (5) recognizing revenue when, or as, we satisfy performance obligations by transferring the promised goods or services.

Through our wholly owned subsidiary SPYR APPS, LLC, d/b/a SPYR GAMES, we develop, publish and co-publish mobile games, and then generate revenue through those games by way of advertising and in-app purchases. The Company's dedicated mobile gaming applications can be downloaded through the app stores maintained by Apple and Google. The Company's cross platform gaming application, which can be played on personal computers, Facebook and mobile devices, can be downloaded from the internet and Facebook as well as through the app stores maintained by Apple, Google and Amazon.

We operate our games as live services that allow players to play for free. Within these games players can purchase virtual items to enhance their game-playing experience. Our identified performance obligation is to display the virtual items within the game. Payment is required at time of purchase and the purchase price is a fixed amount.

Players can purchase our virtual items through various widely accepted payment methods offered in the games, including Apple iTunes accounts, Google Play accounts, Facebook local currency payments, PayPal and credit cards. Payments from players for virtual items are non-refundable and relate to non-cancellable contracts that specify our obligations.

For revenue earned through app stores, players utilize the app store's local currency-based payments program to purchase virtual items in our games. For all payment transactions on these app store platforms, the app store remits to us 70% of the price we request to be charged to the player for each transaction, which represents the transaction price. We recognize revenue net of the amounts retained by the app stores for platform and payment processing fees.

## **Stock-Based Compensation**

The Company periodically issues stock options and warrants to employees and non-employees in non-capital raising transactions for services and for financing costs. The Company accounts for stock option and warrant grants issued and vesting to employees based on the authoritative guidance provided by the Financial Accounting Standards Board (FASB) whereas the value of the award is measured on the date of grant and recognized over the vesting period. The Company accounts for stock option and warrant grants issued and vesting to non-employees in accordance with the authoritative guidance of the FASB whereas the value of the stock compensation is based upon the measurement date as determined at either a) the date at which a performance commitment is reached, or b) at the date at which the necessary performance to earn the equity instruments is complete. Non-employee stock-based compensation charges generally are amortized over the vesting period on a straight-line basis. In certain circumstances where there are no future performance requirements by the non-employee, option grants are immediately vested and the total stock-based compensation charge is recorded in the period of the measurement date.

The fair value of the Company's stock option and warrant grants is estimated using the Black-Scholes Option Pricing model, which uses certain assumptions related to risk-free interest rates, expected volatility, expected life of the stock options or warrants, and future dividends. Compensation expense is recorded based upon the value derived from the Black-Scholes Option Pricing model and based on actual experience. The assumptions used in the Black-Scholes Option Pricing model could materially affect compensation expense recorded in future periods.

The Company also issues restricted shares of its common stock for share-based compensation programs to employees and non-employees. The Company measures the compensation cost with respect to restricted shares to employees based upon the estimated fair value at the date of the grant and is recognized as expense over the period which an employee is required to provide services in exchange for the award. For non-employees, the Company measures the compensation cost with respect to restricted shares based upon the estimated fair value at measurement date which is either a) the date at which a performance commitment is reached, or b) at the date at which the necessary performance to earn the equity instruments is complete.

## **Loss Contingencies**

The Company is subject to various loss contingencies arising in the ordinary course of business. The Company considers the likelihood of loss or impairment of an asset or the incurrence of a liability, as well as its ability to reasonably estimate the amount of loss in determining loss contingencies. An estimated loss contingency is accrued when management concludes that it is probable that an asset has been impaired or a liability has been incurred and the amount of the loss can be reasonably estimated. The Company regularly evaluates current information available to us to determine whether such accruals should be adjusted.

## **Recent Accounting Pronouncements**

See Note 1 of the consolidated financial statements for discussion of recent accounting pronouncements.

## **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

Not applicable.

## **ITEM 4. CONTROLS AND PROCEDURES**

### **Disclosure Controls and Procedures**

Management of the Company is responsible for maintaining disclosure controls and procedures that are designed to ensure that financial information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the timeframes specified in the Securities and Exchange Commission's rules and forms, consistent with Items 307 and 308 of Regulation S-K.

In addition, the disclosure controls and procedures must ensure that such financial information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required financial and other required disclosures.

As of June 30, 2018, an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13(a)-15(e) and 15(d)-15(e) of the Securities Exchange Act of 1934 (the "Exchange Act") was carried out under the supervision and with the participation of our Chief Executive Officer, Chief Financial Officer, and other persons carrying out similar functions for the Company. In making this assessment, Management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) (Revised 2013) in Internal Control over Financial Reporting - Guidance for Smaller Public Companies. Based on the evaluation of the Company's disclosure controls and procedures, Management concluded that during the period covered by this report, such disclosure controls and procedures were not effective, due to certain identified material weaknesses. These identified material weaknesses include, (i) insufficient accounting staff, (ii) inadequate segregation of duties, (iii) limited checks and balances in processing cash and other transactions, and (iv) the lack of independent directors and independent audit committee.

The Company is committed to improving its disclosure controls and procedures and the remediation of identified control weaknesses. As capital becomes available, Management plans to increase the accounting and financial reporting staff, add independent directors to the Board of Directors and establish an independent audit committee. We cannot provide assurance that these procedures will be successful in identifying material errors that may exist in the financial statements, nor can we make assurances that additional material weaknesses in its internal control over financial reporting will not be identified in the future.

The Company continues to employ and refine a structure in which critical accounting policies, issues and estimates are identified, and together with other complex areas, are subject to multiple reviews by accounting personnel. In addition, the Company evaluates and assesses its internal controls and procedures regarding its financial reporting as necessary and on an on-going basis.

Because of its inherent limitations, internal control over financial reporting cannot provide absolute assurance of the prevention or detection of misstatements. In addition, projections of any evaluation of effectiveness to future periods are subject to risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Changes in Internal Controls Over Financial Reporting**

The Company has no reportable changes to its internal controls over financial reporting for the period covered by this report.

The Company will continually enhance and test its internal controls over financial reporting on a continuing basis. Additionally, the Company's management, under the control of its Chief Executive Officer and Chief Financial Officer, will increase its review of its disclosure controls and procedures on an ongoing basis. Finally, the Company plans to designate, in conjunction with its Chief Financial Officer, individuals responsible for identifying reportable developments and the process for resolving compliance issues related to them. The Company believes these actions will focus necessary attention and resources in its internal accounting functions.

## PART II - OTHER INFORMATION

### ITEM 1. LEGAL PROCEEDINGS

On October 14, 2015, the Company was named as a defendant in a case filed in the United States District Court for the District of Delaware case: Zakeni Limited v. SPYR, Inc., f/k/a Eat at Joe's., Ltd. The suit relates to the Company's issuance of two convertible debentures in the aggregate principal amount of \$1,500,000 in 1998. On July 12, 2018, the court approved a Joint Motion for Order Approving Settlement Agreement. Pursuant to the settlement, the Company will issue 3,500,000 common shares valued at \$1,050,000, warrants to purchase 1,000,000 common shares at \$0.25 per share valued at \$276,000, warrants to purchase 1,500,000 common shares at \$0.50 per share valued at \$398,000, and warrants to purchase 1,000,000 common shares at \$0.75 per share valued at \$259,000. The total value of the settlement, \$1,983,000 has been recorded as litigation settlement liability on the accompanying consolidated balance sheets as of June 30, 2018 and December 31, 2017.

On June 18, 2018 the Company was named as a defendant in a case filed in the United States District Court for the Southern District of New York: Securities and Exchange Commission vs. Joseph A. Fiore, Berkshire Capital Management Co., Inc., and Eat at Joe's, Ltd. n/k/a SPYR, Inc. Joseph A. Fiore was the Chairman of our Board of Directors and is a significant shareholder. Mr. Fiore resigned from his positions as Chairman of the Board and as a Director of the Company effective August 1, 2018. The suit alleges that Mr. Fiore, during 2013 and 2014, while he was the Company's Chief Executive Officer, Chief Financial Officer and Chairman of the Board of Directors, engaged in improper conduct on behalf of the defendants named in the case related to the Company's sales of securities in Plandai Biotechnology, Inc. The Commission alleges that Mr. Fiore and the Company unlawfully benefited through the sales of those securities. The Commission also alleges that from 2013 to 2014, the Company's primary business was investing and that it failed to register as an investment company, resulting in an alleged violation of Section 7(a) of the Investment Company Act of 1940. The suit seeks to disgorge Joseph A. Fiore, Berkshire Capital Management Co., Inc., and the Company of alleged profits on the sale of the securities and civil fines related to the Company's failure to register as an investment company with the Commission.

The Company vehemently denies any wrongdoing. The allegations demonstrate a fundamental misunderstanding of existing precedent and a mischaracterization of the facts and transactions at issue, which were not violative of any securities laws, rules or regulations. The Company will answer these allegations in court.

The Company is being represented by Alex Spiro, Esq., a partner with the firm of Quinn Emmanuel, Urquhart & Sullivan, LLP and Marc S. Gottlieb, Esq., a partner with the firm of Ortol Rosenstadt LLP.
