

SPYR Technologies Expands Marketing Campaign for Applied Magix™s MagixDrive

THE WOODLANDS, TX / ACCESSWIRE / January 11, 2022 / SPYR, Inc. dba SPYR Technologies (OTCQB:SPYR), a technology company whose subsidiary, Applied Magix, Inc., develops and resells Apple® ecosystem compatible products in the growing multi-billion-dollar IoT Smart Home and Connected Car markets, announced today that its marketing campaign, which consists of both 30 and 60 second TV Commercials, will air in additional markets to further broaden viewership. TVA Media Group (TVA) and BB3 Advertising have started a dynamic TV ad campaign for MagixDrive, Applied Magix's wireless CarPlay device. TVA Media Group (TVA) began the campaign by placing "test airings" of the commercials on different channels and timeslots during the week of December 27, 2021. Based upon the channels and the time of day that the commercials aired, TVA estimates that the commercials were seen by more than one million viewers. These initial airings served as a test to determine specific interest from different demographic groups. After analyzing this data, a strategic broadcast strategy was created.

The MagixDrive campaign has begun to move into its next phase by increasing the frequency of aired ads and continuing to focus on those audiences that best fit the demographic profile of a "perfect customer" and expanding it to those who fit within a broader profile of interest.

Dr. Harald Zink, CEO of Applied Magix, enthusiastically commented, "We continue to enjoy working with such talented and experienced organizations like TVA and BB3. This has turned out to be an extremely valuable partnership. With their help, we have created an exciting advertising campaign that we expect to be a success."

Viewers will be able to order MagixDrive via a dedicated landing page at www.GetMagixDrive.com and toll free at 800-714-8037.

The Company's MagixDrive is currently available at the Applied Magix website:
